## Summary

Product management leader with 5+ years building systems that help teams ship great products. Driving \$70M+ in annual revenue through portfolio strategy and AI-led initiatives.

## Experience

### Danfoss Power Solutions

New York, NY

*Reporting to Director of Product Management*

*Product Portfolio Manager, Hardware and AI*

Apr 2024 – Present

- Drive cross-functional product migration (team of 9) by creating decision-ready inputs (vision, business case, trade-offs, and GTM milestones); ensure revenue continuity and deliver \$26M+ NPV.
- Run Early Access & beta program for OEM customers aligned to GTM strategy for new product development program (50+ customers), validating hypotheses and de-risking launch for \$40M ARR.
- Established portfolio operating cadence for roadmap prioritization by pairing stakeholder input with financial models; informed \$300M budget allocation and projected 10% ROI uplift YoY.
- Built a closed-loop customer feedback mechanism using Salesforce lost-business insights and Voice of customer synthesis; shipped 3 premium features, delivering \$2M incremental annual revenue.

*Product Manager, AI*

Jan 2023 – Apr 2024

- Operationalized launch readiness for 2 releases by aligning Sales enablement and customer-facing materials; used GenAI tooling to streamline content creation and accelerate release cycles by 25%.
- Led Product and Engineering partnership to define success metrics for an AI anomaly prediction initiative; secured executive buy-in for impact projected to save \$8M+ in recall costs.
- Created ROI framework to standardize scale vs. sunset decisions across product lifecycle; applied on software investment saving \$250K+ and 6+ months of development effort.

### Harley-Davidson

Pittsburgh, PA

*Growth Product Manager, E-commerce*

Jul 2022 – Dec 2022

- Established experiments for acquisition and monetization by defining hypotheses and decision points; tested 10+ funnel hypotheses across organic, paid, and social commerce to drive 20% traffic growth.
- Built an AI-powered insights loop across 50K+ monthly interactions (5+ platforms) to synthesize customer signals into prioritized growth bets; scaled TikTok to 200K+ followers.

### Vapotherm

Pittsburgh, PA

*Product Manager, Telehealth and Medical Devices*

Jan 2022 – Jun 2022

- Led a cross-functional 0-to-1 telehealth MVP for at-home COPD management by connecting user needs to delivery milestones; targeted 25% adherence lift and \$2M cost savings.
- Synthesized journey maps and competitive research into prioritized PRDs/user stories (20+ features), creating roadmap visibility and alignment across stakeholders.
